Integrated solar has come of age, and with Clearline Fusion the highest quality and aesthetics now come at a price competitive with above-roof solar. Roof integrated solar has always been the obvious choice when refurbishing or building a new roof. Clearline Fusion also brings high quality roof integration within reach for retrofit applications.

SUNBEAMsystem Tough Flush (TF) solar modules are a reliable source of energy even under the harshest conditions thanks to the highly efficient SUNPOWER cells (22.5% efficiency). Because there is no junction box, the semi-flexible flush modules, which are only 3 mm thick, can be installed flush to the surface.

SUNBEAMsystem Tough Flush solar modules are a reliable source of energy even under the harshest conditions thanks to the highly efficient SUNPOWER cells (22.5% efficiency). Because there is no junction box, the elegant black, semi-flexible modules, which are only 3 mm thick, can be installed flush to the surface.

Flush solar panels Anguilla

The set includes 4 aluminum flush mount Z brackets, 4 stainless Steel screws and bolts; wide and thick metal design support both large and Small Solar panels ; 2.125 inch Height design allows the Solar panel to function at its maximum efficiency by supporting Solar panel at its optimal Height for bottom aeration

We suspect we'll have an easier ride through planning if we show integrated/ flush solar panels on the roof. Integrated panels on tile roofs are pretty common (we have them on our current roof) but we can only find one example (attached image) of integrated panels on a metal standing seam roof which is what we are going for.

...
