Dominican Republic: Energy intensity: how much energy does it use per unit of GDP? Click to open interactive version. Energy is a large contributor to CO₂ - the burning of fossil fuels accounts for around three-quarters of global greenhouse gas emissions. So, reducing energy consumption can inevitably help to reduce emissions.

The GEN24 product family consists of the GEN24 and the GEN24 Plus. The GEN24 is a future-proof inverter (including PV Point basic backup power) in which the battery operation and optionally also Full Backup hybrid functions can be subsequently activated by the installer via the "UP.storage" software upgrade in Solar.web and in the Fronius online store.
