Battle []. Ganon constantly teleports around the room, spinning his Trident. As Link does damage to him, he will periodically hold his trident above his head and send down lightning, sending Link to the Dark World if he is hit. To return to the arena, Link must defeat four regular Stalfos and a fifth that wields a sword, followed by a Base Creature of Magic.

Ganon is dead prior to the two Oracle games, and the Twinrova seek to revive him. Their plan consists of sending two powerful beings, General Onox and Veran, to the lands of Holodrum and Labrynna respectively. The villains wreak havoc upon the two lands, and though both are defeated by the hero Link, they succeed in lighting two of the Flames of the Dark Rites.
