

Where can I find information about Guadeloupe energy?

Welcome to the website of Guadeloupe Energie! On this website, you'll find information on Guadeloupe's progress on energy transition from energy legislation to industry data, from profiles for renewable energy in Guadeloupe to the latest news and events--all in one place.

Where is Bouillante geothermal power plant located?

This article is part of the Global Geothermal Power Tracker, a Global Energy Monitor project. Bouillante geothermal power plant (local name: Centrale géothermique de Bouillante) is a 15 MW operating geothermal power plant in Bouillante, Guadeloupe, Guadeloupe. The map below shows the exact locations of the geothermal power plant units:

How can Guadeloupe achieve energy independence?

"Achieving energy independence in Guadeloupe by shifting from fossil fuels to renewable energy sources is a challenge that we must take up for the benefit of future generations. With clear objectives and applying the means for success, the Multi-Year Energy Program (PPE) exemplifies our political resolve to reach our goals."

GEM Energy has been working with Coates since 2022 to install solar at Coates locations across Australia. To date, over 900kW of solar and more than 2,300 panels have been installed on 23 branches. These installations have helped Coates significantly reduce energy consumption and its overall carbon footprint, and helped Coates get closer to achieving its 2026 and 2030 interim ...
