# Generac generator solar Tunisia

About Generac Generac Power Systems, Inc. (NYSE: GNRC) is a leading global supplier of backup power and prime power products, systems, engine-powered tools, and solar energy storage systems. In 1959, our founder was committed to designing, engineering and manufacturing the first affordable backup generator.

In my scenario, I have never needed the back up generator, because I have enough powerwall storage to last the 12 hours needed to make it from night to day. I think what you say is true though. If you go to generator, you will stay on generator until the power is back on. However, you will have an ATS that should have a manual switch.

The 12V Group 26R 540 CCA battery is commonly used in Generac home standby generators for its reliable starting power and performance in various temperatures. The "CCA" rating indicates the battery's ability to start an engine at 0 degrees F (-18 C) for 30 seconds while maintaining a voltage of at least 7.2 volts.
