

What is Constantine energy storage?

Constantine Energy Storage (CES) was founded in 2022 as a platform to construct, own and operate best in class institutional grade battery energy storage systems (BESS). As the country's energy system decarbonises, BESS is needed to help balance the system and supply key services to ensure safe and reliable energy supply across the grid network.

How many MW of new battery storage capacity does Greece have?

The Greek energy regulator has awarded 300 MW of new battery storage capacity in the nation's second energy storage tender, split among 11 projects. The tender is part of the country's 1 GW energy storage auction program. The projects range in size from 8,875 MW/17,75 MWh to 49,9 MW/100 MWh).

Does Greece have a battery storage pipeline?

Greece has emerged as one of the countries with the largest pipeline of battery storage projects, but as yet there has been little activity on the ground. This is changing as the long-awaited storage subsidy auctions have started, with the first projects being awarded support for both investment and operating costs.

Why is energy storage important?

As the country's energy system decarbonises, energy storage is needed to help balance the system and supply key services to ensure safe and reliable supply. Through our unique combination of scale, location, and deliverability, our portfolio is at the forefront of enabling the energy transition.

How much does an energy storage auction cost in Greece?

The projects range in size from 8,875 MW/17,75 MWh to 49,9 MW/100 MWh). The regulator said the auction was highly competitive, leading to an average tender price of EUR47,680 (\$51,506)/MW per year. Greece's energy storage auction program awards contracts-for-difference (CfD) over periods of 10 years.

Who is Louis from Constantine energy storage?

Louis joined Constantine Energy Storage in 2021 and is responsible for the construction and operation of the portfolio. He has over 15 years' experience in the energy industry and prior to Constantine Energy Storage worked for Centrica, REstore and British Gas.

On July 4, 2022, the Greek Parliament adopted Law 4951/2022 entitled "Modernization of the licensing process for Renewable Energy Sources -Phase B", Licensing of electricity production and storage, framework for the development of Pilot Marine Floating Photovoltaic Plants and more specific provisions for energy and the protection of the environment" (Government Gazette ...

About Constantine Energy Storage. Constantine Energy Storage (CES) was founded in 2022 as a platform to construct, own and operate best in class institutional grade battery energy storage systems (BESS). ...

Greece constantine energy storage

Energy storage is simply the ability to capture energy for use later. As we transition the world from a power system using fossil fuels, where energy is stored within the fuels themselves, to one using renewables, the requirement for ...

Geothermal exploitation in Greece comprises 43 MWth of low enthalpy geothermal energy use for greenhouse heating and other agricultural applications, 43 MWth of thermal spas and 191 MWth of ground ...

Sungrow Power Supply Co will supply Constantine Energy Storage (CES) with its liquid-cooled grid-scale BESS (battery energy storage system) solution "Power Titan". The units will go towards an 825MWh pipeline ...

Alberta Investment Management Corporation (AIMCo) and investment manager Railpen have jointly acquired a 94% stake in UK battery storage company, Constantine Energy Storage (CES). CES develops grid-scale batteries, and is planning to invest more than £400 million to build out a pipeline of projects in the UK.

The need for storage in Greece will accelerate rapidly over the next decade as renewables targets are revised upwards and coal plants are closed. The pivot to gas, a core part of the country's energy strategy just a ...

Renewable Energy Projects Management Consultant & An Engineering originated business fellow with quite a long -wide as well- course of experience and development in diverse scientific disciplines, engineering subjects, technical projects and business activities from various posts and positions of responsibility.& It;br& gt;A votary of continuous self development gradually ...
