Your dedication and partnership have been invaluable to SVEVIND Energy Group and our project Hyrasia One. I am deeply grateful for the shared successes we have celebrated throughout the year. As we look to 2025, I am filled with optimism and excitement for the opportunities that lie ahead. We are confident that politics and the economy will ...

The drilling is part of the pre-FEED phase for which the SVEVIND Energy Group now has a strong partner at its side: part of the event in the middle of the Kazakh steppe was the ceremonial signing of a pre-FEED contract with Genesis, wholly owned by the French Engineering and Technology company, Technip Energies. The pre-FEED will run until the ...

group SVEVIND Energy Group, is planning one of the world's largest industrial plants for the production of pure green hydrogen in Kazakhstan. The HYRASIA ONE project is thus entering the next, decisive phase. In the presence of Kassym-Jomart Tokayev, President of the Republic of Kazakhstan, and Charles Michel, President of the European Council, ...

During the meeting with the management of Svevind Energy Group, the parties addressed matters related to the preparatory phases of a "green" hydrogen production project in the Mangistau region. President was briefed on the initiation of preliminary design and survey work (Pre-FEED) as part of the Investment Agreement, signed during the visit of ...

Hyrasia One is setting new standards for the renewable energy sector. Hyrasia One is one of the ten largest green hydrogen projects currently planned in the world. To ensure the future performance and effectiveness of Hyrasia One, German engineers and experts around the world are pioneering the technical processes, planning the necessary infrastructure, and thinking ...
