Will the Isle of Man have a solar energy farm?

Plans have been submitted for the Isle of Man's first solar energy farm. The proposed 84-acre development in the south of the island would generate enough electricity to power nearly 8,000 homes per year, developers said.

Does Zurich have a solar power project?

Zurich has officially launched its solar power project, which will provide up to 70% of the electricity for its offices at Isle of Man Business Park.

Will 84 acre solar farm be built in Malew?

The proposed 84-acre development in the south of the island would generate enough electricity to power nearly 8,000 homes per year, developers said. Peel Cubico Renewables said the Billown Solar Farm, to be built on agricultural land in Malew near Castletown, could be in operation next year if approved.

How many solar sites will Manx Utilities have?

Working with the Department of Infrastructure, Manx Utilities has identified over 30 sites suitable to deliver a total of 30 Megawatts of solar power on the public estate. The first phase of solar installations will see five projects being progressed with more sites to be identified to reach the 10 Megawatt objective.
