

# Guadeloupe opsun systems inc

Our engineers use only the safest methods of calculation, to assure maximum solidity and durability of the structures. We have proprietary, recent wind tunnel tests with Western University, and we design using the latest Building Codes (ASCE-7-16, NBCC 2016, IBC 2018), as well as SEAOC PV2 notions of array size versus roof size to account for extraordinary vortices.

Opsun - Leader en structures solaires PV bifaciales | Nous offrons les meilleures structures fixes pour augmenter la performance de vos panneaux solaires bifaciaux. Nos experts vous aident à augmenter votre Retour sur Investissement.

Bifacial système de montage panneaux solaires photovoltaïques PV ingénierie NBCC 2015 ASCE 7-16 manufacture service structure aluminium au sol pieux vissés ballastés;

OPSUN est un leader canadien dans la conception, l'ingénierie et la fabrication de structures sur mesure supportant des panneaux photovoltaïques. Travailler avec nous est une excellente occasion de travailler dans le secteur de haute technologie des énergies renouvelables et de contribuer à la lutte contre le changement climatique.

Established in 2005 and based in Canada, Opsun is a design, engineering and manufacturing firm specializing in bifacial PV racking structures. Opsun's unique software-based process allows to quickly design and manufacture aluminum ...
