Mrs. Bernadette Darracq bought the property in 1968. She added an upper story, half-timbered, inspired by the architecture of Normandy, making this one of the few half-timbered houses on the island. In 1985, the house and land were transferred by Consorts Darracq ("Darracq and Company") to the commune of Saint-Claude.

A solar charger is a charger that employs solar energy to supply electricity to devices or batteries. They are generally portable.. Solar chargers can charge lead acid or Ni-Cd battery banks up to 48 V and hundreds of ampere hours (up to 4000 Ah) capacity. Such type of solar charger setups generally use an intelligent charge controller.A series of solar cells are installed in a stationary ...

This is the site of Baie-Mahault's former electrical power plant, a reinforced concrete building erected after the World War II to supplement the power produced by the first plant, built in 1934 and inaugurated in 1936, which used three multi-tube Babcock and Wilcock boilers to produce 2,750 kw of electricity.
