Guam ups battery for solar

properly followed for such shipments.

HYBRID UPS. Hybrid ups senses the availability of solar power, grid power and the battery power for supporting the connected loads using the most economical and ecological combination of these energy sources. TGC series solar converter is connected to the DC bus of the Hybrid UPS and solar group is set as the primary energy source.

Solar panels can be connected to a solar or a regular UPS. Solar UPSs have a solar charge controller in their design, allowing the solar panel to charge the UPS's battery. A hybrid system uses solar power and grid electricity to charge the UPS's battery. There is a bit of confusion between a solar UPS and a solar inverter.
