Why is Viridi Parente partnering with KULR Technology Group?

With safety being a key factor to the success of point-of-use battery storage, Viridi Parente is working with KULR Technology Group, Inc. (NYSE: KULR) to combine its patented safety technology with Viridi's battery architecture, creating a pack system that is safe enough to install indoors and durable enough to withstand the outdoor elements.

What makes Viridi Parente unique?

Through a partnership with Ly-Cycle, Viridi Parente commits to 100% recycling for all end-of-life cells making Viridi the first company in the industry with such a bold commitment. Fail-Safe design validated with in house tests for the RPS 50. Final RPS 50 destructive UL9540A test at independent test agency.

Why should you choose Viridi?

Revolutionizing the way energy is used and stored. Powerful, affordable, and scalable so you can take your business to the next level. Viridi designs and builds fail-safe battery energy storage systems with on-demand, affordable power for use in industrial, medical, commercial, municipal, and residential building applications.

Who is National Grid's first customer of Viridi Parente?

William said National Grid was the first customer of Viridi Parente's battery-powered construction equipment. But he said National Grid's vision goes deeper. Viridi Parente is developing a line of stationary energy storage stations that could be used on everything from buildings to parking lots.

Who is the founder of Viridi Parente?

Jon M. Williams, the founder of Viridi Parente, is no stranger to innovation, having founded and grown successful businesses in three fields: environmental engineering, heavy equipment rental and servicing, and real estate development.
