

Guernsey low budget solar panel

As well as being robust and flexible in installation, a range of fixing brackets allows for the panels to be installed on all types of roof tiles including concrete and slate. Our supplier manufactures sleek, low-profile roof-integrated solar panels that replace the tiles or slates on a roof to make solar a genuine home improvement.

With solar panels, you generate your own power, giving you control and peace of mind. Furthermore, solar panels are low maintenance. Once installed, they require minimal upkeep, letting you focus on enjoying your tiny house lifestyle. Additionally, advancements in solar technology have made panels more efficient and durable, ensuring long ...

Whilst areas fully open to the sun are great if you have areas where say a tree or building shade moves across, with the right system design the effect of shade can be minimised. "Solar Photovoltaic" is the formal name for these type of solar panels and are commonly abbreviated to "Solar PV" or just "PV".

The solar array will also help Guernsey's energy security by diversifying the island's energy mix, being in addition to the existing on-island generation and importation of low-carbon electricity from France. Planning permission for the solar array was given in November 2017. It is hoped installation will be completed by the end of the month.
