

Guinea-Bissau generatore solare

Does Guinea-Bissau have solar power?

Guinea-Bissau relies on fossil fuels and solar has seen limited development, with the exception of rural electrification initiatives. The nation has one of the lowest electrification rates in Africa, as well as electricity prices among the highest on the continent.

Who financed the Guinea-Bissau solar project?

The entire solar and hybrid project is being financed by the Government of Guinea-Bissau with a \$42.9 million loan from the West African Development Bank (BOAD). This financing was granted as early as 2017. The solar project, for which Sinohydro signed the engineering, procurement and construction (EPC) contract, involves three facilities.

Will China build Guinea-Bissau's first solar power plant?

A Chinese state-owned company has been contracted to build Guinea-Bissau's first large scale photovoltaic project, the Gardete solar power plant. The African Biofuel and Renewable Energy Company (ABREC), which promotes renewables and energy efficiency in several countries, has awarded the contract to China's hydropower entity, Sinohydro.

How much power does Guinea-Bissau have?

The AfDB recently stated Guinea-Bissau has only 11 MW of installed power generation capacity, almost all of being thermal generation. "Real capacity is only 8 MW, only 5 MW of which is available 24 hours per day due to the maintenance required and the inability of the electric power utility to obtain the necessary fuel," a report by the bank said.

The solar asset, planned for Gardete near the city of Bissau, will sell power to national utility EAGB under a long-term contract. The West African Development Bank is backing the project with a...
