

Hitachi Energy has launched India's first 400 kV class three-phase synthetic ester fluid-filled power transformer for Power Grid Corporation of India, marking a leap in sustainable power ...

Turntide Technologies will supply next-generation LFP batteries, which are designed to be smaller and more powerful than previous lithium-ion batteries. This order comes after Hitachi Rail was ...

Turntide Technologies has been selected by Hitachi Rail to supply Gen 2 lithium iron phosphate (LFP) battery system for its Grand Central intercity Turntide Technologies has been selected ...

Hitachi Energy, whose global headquarters is in Switzerland, will be investing more in the digitalization of grids, as well as solutions to ensure the safe and stable operation of power systems in China, said Claudio Facchin, CEO of ...

Hitachi Energy is a global technology leader in electrification, powering a sustainable energy future through innovative power grid technologies with digital at the core. Over three billion ...

February 2023: Energy Hub and Siemens join forces to enhance their ecosystem of partners for their grid software business. EnergyHub offers a world-class grid-edge management solution, integrating its DERMS platform ...

Stefan Zschiegner From smart meters to predictive analytics, the grid of tomorrow will be built on real-time decision-making at the edge, writes Stefan Zschiegner of Itron. As the saying goes, ...

The opportunity Join Hitachi Energy as the GPG Grid & Power Quality Solutions transformation PMO and lead a high-impact global scale-up initiative at the heart of the energy transition. ...

Abstract: The electricity grid has evolved from a physical system to a cyber-physical system with digital devices that perform measurement, control, communication, computation, and actuation.

Hitachi Energy on Wednesday said that it has flagged off India's first 400 kV class three-phase synthetic ester fluid-filled power transformer for Power Grid Corporation of India. This occasion ...

Sleek, smooth, and a little divisive. The original Lofree Flow was easily one of the most popular low-profile mechanical keyboards out there. Super slim, solid build quality and really nice to ...

The ester-filled transformer is built on Hitachi Energy's TrafoStar platform - a globally harmonized system for transformer design, manufacturing and quality assurance - ensuring a standardized ...
