5 ???· Prime Minister Mostafa Madbouly participated in the inauguration ceremony of the Abydos 1 Solar Power Plant in the Kom Ombo Desert in Aswan Governorate. Upon his arrival at the site of the Abydos 1 Solar Power Plant, the Prime Minister was keen to take a group photo with the officials and workers ...

The Al-Swidiah power generating station consists of 6 gas turbines with a combined capacity of 90 MW. It is owned by the Syrian Ministry of Oil. It feeds the oil wells, the gas plant, the villages connected to the oil well power lines, as well as the Rmelan labor city, and any surplus goes to the public network.

As per the minister, Syria at present has 8000 MW of power plant capabilities, out of which 2500 MW are functional, which is more than just one-fourth. He added that recently, they have already gone on to overhaul a couple of units of a thermal power plant in Aleppo. These units went operational in April with a capacity of 480 MW.

The solar plant was constructed on the outskirts of the camp, consisting of 40,000 photovoltaic panels arranged in rows hundreds of metres long covering an area roughly the size of 33 soccer pitches. The project provided employment to workers from the local Jordanian community, as well as 75 Syrian refugees living in the camp under an existing ...
