Hi @beninho,. Potentially you could have more than one inverter at a single place. From github there's more information about the parameters required. The first two would identify YOU as a person whereas the the plant_id would identify a specific system.

Household Owners Check home plant real-time data at anytime and anywhere. Home Energy Management Wisely managing energy use has been a high priority when households are on the way to pursue a smart life with sustainable energy, improved efficiency and reduced bills. By applying advanced technologies of IoTs (Internet of Things) and wireless communication and [...]
