What is solar battery storage?

Battery storage systems are one of the latest technologies revolutionizing the clean energy transition. Solar batteries can reduce your reliance on the electricity grid by storing surplus energy generated from solar panels to use when the sun is less available.

Are solar batteries a required part of a solar system?

Solar batteries are not a required part of a solar system but can be worth it during power outages and for those with TOU energy plans. You can save money by using stored energy during peak hours when electricity rates are the most expensive. If you're not home for most of the day, you likely will not use all the solar energy your system produces.
