

Costa Rica's environmental leadership is rooted in its near-total reliance on renewable energy, with more than 99% of its electricity coming from hydro, wind, and geothermal sources by 2025. The nation's plan to cut emissions by 25% ...

OLADE's technical note 10, entitled "Energy Storage in Latin America and the Caribbean - Current Status, Challenges and Strategic Recommendations" reports 2.5 GW of installed capacity in the region. Energy storage installations are ...

This premier battery conference kicks off with a high-level plenary featuring opening ceremonies, keynote speeches, and executive dialogues. Along with the Leaders Closed-door Roundtable, these sessions will bring together ...

India has reached a significant milestone in its transition to clean energy by achieving 50% of its installed electricity capacity from non-fossil fuel sources, surpassing its 2030 target under the ...

Actor Malcolm-Jamal Warner has died at 54. He was known for playing Theo Huxtable on "The Cosby Show." Costa Rican authorities report he drowned Sunday afternoon at Playa Grande ...

GSE Solutions has developed a hydrogen fuel cell generation and storage plant simulation model to support NuScale Power's hydrogen simulator project. The initiative is part of the broader ...

The Oxford Institute for Energy Studies has found that hydrogen-based power-to-power, or PtP, technology could be crucial for global energy grids as they navigate the rising share of variable renewable energy, despite its ...

CGEP is pleased to publish this National Hydrogen Strategies and Roadmap Tracker. It gathers the official documents published by governments, including the updates of the strategies and roadmaps when relevant.

Grid-scale energy storage in India is still in its early stages, with only a few large-scale projects currently under implementation. Green hydrogen is viewed as a potential future fuel for sectors ...

India's renewable energy capacity has surged to 179 GW, but integrating that power into the grid is the next frontier. India's \$70 million Investment Plan under our Renewable Energy ...

Electrolysis transforms surplus power into hydrogen, which is used in fuel cells, turbines, or natural gas blends. Pilot projects in Gujarat and Uttar Pradesh are testing this for seasonal ...

India costa rica hydrogen energy storage

The 11th edition of India Energy Storage Week (IESW) is a one-stop networking platform for energy storage, e-mobility & green hydrogen sector. The IESW series of exhibitions has created a niche in the energy storage, electric ...
