In November 2021 the Instagrid ONE max was awarded with the German Design Award 2022 in Gold. What was included in the design process, and how has the design developed throughout the three-year process? Felix Fuchs, the designer of instagrid ONE max dives us deeper into the design principles and process.

The Instagrid team is a dynamic melting pot of talent, uniting individuals from over 40 countries worldwide. We take great pride in fostering an inclusive environment that celebrates diversity, with employees hailing from all walks of life.

However, today it is impossible to receive precise, confirmed CO2 emissions from battery cell suppliers, which is why we highly welcome the marking strategy of the EU commission. Since the instagrid technology

Instagrid gmbh U S Virgin Islands

is agnostic to battery cell technology, we are happy this will put us in the position to choose the most sustainable technology for us. 2.
