

Our rapidly expanding portfolio of operational projects spans Scotland, England, Wales, Ireland and includes 48 operational sites, including 35 onshore wind farm, 2 major offshore developments, six solar and five battery ...

Resonate Testing, a Newry-based company, has secured a £475,000 investment to set up this pioneering facility, which is poised to cater to a variety of industries, including ...

The last couple of championships were tough for Kerry. Losing to Dublin in the 2023 decider, followed by a semi-final loss to Armagh last year, hurt everybody connected with this team. ...

According to Hyundai, "the integration of battery conditioning functions leads to higher and long-lasting performance, while optimised thermal management control and an increased capacity ...

Google has identified a potential battery overheating issue affecting certain Pixel 6a devices, following reports of overheating and two incidents of devices catching fire earlier this year. In ...

LiFeYPO₄ Battery: The Emerging Star of High-Performance Lithium Batteries Compared to traditional LiFePO₄ batteries, LiFeYPO₄ batteries enhance conductivity, energy density, and ...

During testing, I saw it efficiently optimize battery performance while charging, which is a big plus for maintaining long-term health, especially for generator batteries that sit unused for stretches.

Batteries can maximise savings and help you make the most of the electricity you generate at home. You can choose to charge your battery using: Surplus solar panel energy: electricity generated by solar panels during the ...

Researchers in China have developed a promising new design for solid-state sodium batteries using a tin-based interlayer to solve long-standing performance problems. The approach ...

What is a home storage battery? Home batteries store electricity generated from solar panels or other sources, so you can use energy at a time that suits you. They work just like a rechargeable mobile phone battery and ...

Ireland battery performance
