Please fill out the contact form below and we will get back to you shortly. Learning Center. This Resource Library is designed to provide current, relevant resources that provide technical knowledge and practical ...

Iris Power Epoxy Mica Capacitors (80 pF) Iris Power Epoxy Mica Capacitors (EMCs) are designed to detect Partial Discharge (PD) activity in electrical equipment such as switchgear, isolated phase bus, and dry type transformers without imposing on the equipment operation or reliability in any way.

Telephone: +1-905-677-4824; Fax: +1-905-677-8498; Email: sales is@qualitrolcorp ; -- Page 2... Ian ulbert, a long time machine specialist at Iris Power, died suddenly on Tuesday, September 8th, 2015 after a short illness. He was well known to customers for giving courses and providing techncial support.

About Iris Power. Iris Power, founded in 1990, offers sensors, monitors and diagnostic solutions for the assessment of the actual state of generators, motors, dry-type transformers and air-insulated switchgear, so that the risk assessed and the necessary maintenance can be planned.

. IRIS Power GuardII+ 4208 IPB System Low Risk of False Indications . The Iris Power GuardII+ 4208 IPB monitor includes our unique and rigorously researched methods to overcome the electrical interference (noise) typical in ...

Iris Power, founded in 1990, offers sensors, monitors and diagnostic solutions for the assessment of the actual state of generators, motors, dry-type transformers and air-insulated switchgear, ...

Motor and generator stator endwinding vibration can lead to machine failure if it is not caught at an early stage. Non-metallic accelerometers are required to measure and trend this endwinding vibration due to the high voltages and high magnetic fields in the endwindings. Iris Power supplies reliable

IRIS POWER LP - A QUALITROL COMPANY | 2,929 followers on LinkedIn. Iris Power offers a comprehensive range of sensors, diagnostic instruments, and software for condition-based monitoring. | Iris Power LP was established to provide high-quality products and services to improve maintenance capabilities for large motors and generators used by power utilities and ...

Irispower com Grenada

Iris Power offers four different Epoxy Mica Couplers to accommodate machine voltage ratings: EMC Voltage Rating 6.9 kV 16 kV 25 kV 28 kV DEV @ 1 pC 8.0 kV 18.6 kV 29.0 kV 32.3 kV AC Withstand 15 kVms in operating equipment because 33 ...

About Iris Power. Iris Power, founded in 1990, offers sensors, monitors and diagnostic solutions for the assessment of the actual state of generators, motors, dry-type transformers and air-insulated switchgear, so that the risk assessed ...

Telephone: +1-905-677-4824; Fax: +1-905-677-8498; Email: sales is@qualitrolcorp ; -- Partial discharge (PD) testing is one of the most widely used methods to assess the quality of electrical insulation in new high voltage equip-ment such as power cables, transformers and switchgear.

Iris Power specializes in C& I, Residential and Community Solar PV/PV+ESS projects. Dedicated to empowering commercial/industrial real estate owners as well as land owners to unlock the full potential of their properties.

. A THIRD GENERATION ONLINE TOOL TO FIND BROKEN ROTOR BARS AND ROTOR AIR GAP ECCENTRICITY IN INDUCTION MOTORS Breaks in squirrel cage induction motor rotor windings as well as rotor unbalance due to eccentricity have long been known to be a significant cause of motor failures. Broken rotor bars are especially likely in motors
