

Ivory Coast yeti 1500x portable power station

What is a goal zero Yeti 1500x power station?

Powerful enough to back up home circuits, but portable enough to take to the jobsite or integrate into a van build--the Goal Zero Yeti 1500X power station is perfect for any project, indoors or out. Not quick enough? Drop your recharge to 3 hrs. with the 600W Power Supply (not included) or to 7 hrs. with the 230W Power Supply (not included)

How long does a Yeti 1500x battery last?

The Yeti 1500x's battery capacity is 1500 watt hours, which would last for just over 1 hour when powering a 1400 watt device. Are solar panels included? If not how much do they cost? No, the Yeti Power Stations do not include solar panels with them. The pricing of the solar panels depends on the size you purchase.

How many USB ports does the Yeti 1500x have?

Power a wide range of devices with seven different port options including fast-charging 60W USB-C Power Delivery, multiple USB-A ports, regulated 12V, and two 120V AC ports. Charge the Yeti 1500X from the sun with our portable solar panels while away from the grid and keep it topped off from a wall outlet when you're home.

How long does it take to charge a Yeti 1500x?

Charge times are dependent on the size of the solar panel. The Boulder 100 Briefcase will provide 100W of solar and fully recharge the Yeti 1500X in 18-36 hours of sun. Plug it into the wall. Fully recharges in 14 hours using the included 120W Power Supply AC Wall Charger. Not quick enough?

What size inverter should I use with a Yeti 1500x?

Pair the YETI 1500X with the rugged Boulder 100 Briefcase for mid-sized to large devices. Our bestselling large power station now comes with even more power and a bigger inverter to let you tackle any project, indoors or out. The new 2000-Watt AC inverter allows you to confidently run anything you need to get the job done.

How do I recharge my Yeti 1500x?

Recharge from the sun by connecting a compatible solar panel. Charge times are dependent on the size of the solar panel. The Boulder 100 Briefcase will provide 100W of solar and fully recharge the Yeti 1500X in 18-36 hours of sun. Plug it into the wall. Fully recharges in 14 hours using the included 120W Power Supply AC Wall Charger.

Power a Wide Range of Devices: Yeti 500X is equipped with four different port options--including AC, 12V, and 60W USB-C PD--to power everything from phones to portable fridges. High-Speed Charging Solution: Equipped with the latest charging technology, including a high-speed Power Delivery port capable of charging
