Who is Nordic batteries?

Nordic Batteries fills the gap in the value chain between cell producers and system integrators, completing the Norwegian value chain for battery production. They have developed battery modules and ground-breaking technology for automated assembly. CEO Jarle Gjøsæther received the diploma from Frank Bråthen in Kongsberg last week.

Why should you choose Nordic batteries?

At Nordic Batteries we focus on what is important: safety, reliability and performance. Nordic Batteries fills the gap in the value chain between cell producers and system integrators, completing the Norwegian value chain for battery production. They have developed battery modules and ground-breaking technology for automated assembly.

What is the Nordic battery collaboration?

The Nordic Battery Collaboration is founded on Norway, Sweden, and Finland's shared similarities and comparative strengths across the battery value chain. The three countries work closely together with a joint value proposition which aims to attract foreign direct investments as well as strategic partnerships with OEMs and R&D centres.

Where does Nordic batteries build a fully automated battery assembly plant?

With its Industry 4.0 initiative, Nordic Batteries builds a fully automated agile battery assembly plant. The pilot plant is developed in the BATNET-project and will be operational Q1 24. The company has locations in Kongsberg and Høvik outside Oslo.

Are batteries a potential green industry in Norway?

McKinsey & Co. has identified batteries as one of Norway's principal potential green industries in the future. According to the consultancy, a rapid and broad strengthening of all parts of the battery value chain is needed to satisfy the global battery shortage.

What is a customized battery & energy storage solution?

Our customized battery and energy storage solutions are designed to meet the demanding requirements of this industry. Our products offer robust, high-performance power solutions suitable to power a variety of defence applications, including portable military electronics and communication systems.

The Nordic Battery Collaboration invites you to the fourth Nordic regional battery visit, focusing on the Green Transformation of the Nordics! This exciting event will take place in Vaasa, Finland, where the energy technology industry has a long-established history. ... Marine & Batteries Session: Insights from We Tech Solutions, Candela, and more.
