

Jersey solar panel in lagos

For instance, a Canadian Solar 180W panel is 180W (STC). An array made from 10 of these panels would be 1,800W (STC). In other words, the STC rating of a solar panel is its output capacity under ideal conditions. It is thus, the name plate value of the solar panel and is given as the wattage of the module.

Solar power technologies harness the energy from the sun's light and converts it into electricity. Solar photovoltaic panels, (Solar PV panels), are made up of individual cells made of silicon or other special material. When the sun hits the solar panel the photons from the sunlight are absorbed by the cells, creating an electric field and causing electricity to flow.
