Power outages are common events for many Australians in regional areas going without power for days at time. Many people are choosing to purchase a portable generator as a backup power supply. These portable petrol or diesel ...

I paid \$1,100 for the generator but they're showing up online for a little less. I got mine via Amazon. It has electric start and during testing, I ran it probably 6 or 7 times, and it always started up immediately and ran great. Remember that gasoline gives you the most power, and propane reduces it a little, and natural gas reduces it still more.

You can either power the backup generator via gas (assuming you are plumbed for natural gas...or liquid propane) or diesel. Sizing, however, is based on what you need to power. You could power the entire house (lights, appliances, etc), but the size of the unit will be large, or you could opt to power just the essentials such as a refrigerator ...
