

Electric Vehicle (EV) registrations in Malaysia continue to show a steady growth despite a dip in registrations last month. There's also an interesting shake up as Proton regains its #1 spot in ...

China's BYD said on Tuesday it delivered 382,585 vehicles globally in June, marking a 10.5% increase from the same month last year. Of the total, 377,628 were passenger vehicles, ...

As Europe's electricity mix is getting cleaner, battery-electric vehicles (BEVs) are also offering a larger climate advantage than previously expected, according to the results of a new study ...

Myanmar Strives to Promote Electric Vehicle Industry On 31 March 2025, Myanmar's Ministry of Planning and Finance issued Notification 27/2025 to promote the electric vehicle (EV) industry ...

According to Precedence Research, the global electric vehicle (EV) market size is projected to hit USD 2,529.10 billion by 2034 increasing from USD 890.72 billion in 2024, driven by battery ...

In the first half of the year, more than 5.9 million battery electric vehicles (BEVs) were registered worldwide, a 37% increase compared to the same period in 2024. For comparison, full-year sales in 2024 had only grown by around 14%. China ...

Fuel cell vehicles (FCVs), which convert hydrogen into electricity via an electrochemical reaction, offer several benefits compared to internal combustion engine (ICE) vehicles and battery ...

The project consortium, coordinated by an Austrian Research Institute, is looking for a company (SME or bigger) acting as Original Equipment Manufacturer, who can cover all vehicle-related ...

Central to the exhibit was Toyota's Multipathway Approach to carbon reduction, which promotes a spectrum of technologies including efficient Internal Combustion Engine Vehicles (ICEs), ...

Market segmentation reveals a strong preference for Battery Electric Vehicles (BEVs) over Plug-in Hybrid Electric Vehicles (PHEVs) and Fuel Cell Electric Vehicles (FCEVs), with BEVs capturing the largest market share.

Registrations of vehicles with plugs rose strongly as battery electric vehicles (BEVs) jumped 39.1% to 47,354 units, equivalent to a quarter (24.8%) of the market, and plug-in hybrid electric vehicles (PHEVs) grew 28.8% to 21,382 ...

This paper explores the implementation of battery electric vehicles (BEVs) in underground mining operations, focusing on their benefits, challenges, and safety considerations. The study ...

As of the end of 2024, Thailand surged ahead in electric vehicle (EV) adoption, registering a total of 227,490 battery electric vehicles (BEVs). The country also had around 11,000 public EV ...

As the global shift toward clean transportation accelerates, understanding the trade-offs between Battery Electric Vehicles (BEVs) and Hybrid Electric Vehicles (HEVs) is essential--especially ...

KUALA LUMPUR, July 22 (Xinhua) -- Analysts have foreseen intensified competition for electric vehicles (EVs) in Malaysia amid policy changes in the country. Research house BIMB said in a note on Monday that Malaysia's EV ...

He noted that circular material use can significantly reduce life-cycle emissions of battery electric vehicles (BEVs). Highlighting global trends, he cited Extended Producer Responsibility (EPR) ...

According to the Electric Vehicle Council (EVC), more than 14,000 additional battery electric vehicles (BEVs) and plug-in hybrid electric vehicles (PHEVs) have been sold in Australia so far ...

Running electric vehicles is already almost as cheap as petrol models. (Alamy) "Our 2025 Car Cost Index shows that when you look at the full picture - including everything from fuel and ...

Kuala Lumpur battery electric vehicles bevs
