

The International Energy Agency (IEA) unveiled its latest in-depth review of Lithuania's energy policy on Monday, highlighting the country's progress toward strategic energy goals and...

A solar park developed by European Energy in Meiluskiai, Anyksciai district, has joined the electricity balancing market organised by the Lithuanian electricity TSO Litgrid and submitted ...

Lithuania has nearly doubled its electricity generation from renewable sources between 2022 and 2024, spurred by enhanced permitting and support schemes. These policy shifts have also led ...

Our latest battery energy storage system just got a major upgrade. The LiNa Engineers have slashed the size by 50% while maintaining the same 10kWh capacity. As solar energy deployment expands globally, we're ...

Green Genius has launched a 7.5 MW solar and 6 MWh battery system at Carlsberg's Svyturys-Utenos Alus brewery in Lithuania, fully decarbonising its electricity use and setting a new sustainability benchmark in ...

Trina Storage, the BESS division of solar energy firm Trinasolar, has announced deployment of three new battery storage projects in Lithuania totaling 90MW/180MWh. The installations will ...

Comprehensive news coverage of renewable energy projects, investments, and policies across Europe. Track the latest in solar PV, onshore and offshore wind, hydrogen, energy storage, and more. Stay informed on ...

In terms of policy alignment, while Lithuania adopted ambitious targets under the National Energy Independence Strategies and the National Energy and Climate Plan, there are still gaps in the ...

Renewable energy initiatives and goals Lithuania has set ambitious goals for renewable energy, aiming to increase its reliance on green energy sources. The government's focus on wind and solar power is part of a broader ...

A turbine at an Ignitis Group onshore wind power plant. Image: Ignitis Group Utility Ignitis Group has taken a final investment decision (FID) on three large-scale battery storage projects in ...

China is set to nearly double its solar energy capacity, reaching 2,500 GW by 2030--up from 1,230 GW in 2025--according to a new report by Mordor Intelligence. This represents a ...

The number of small solar power installations in Lithuania has nearly doubled over the past year. While standard rooftop systems continue to dominate consumer interest, retailers are ...

Lithuania solar energy policy

As the renewable energy transition progresses, new technology is quickly enabling an additional demographic of energy consumers to take part in the decarbonisation of electricity production, ...

The Delhi Government has notified the first amendment to its Delhi Solar Energy Policy 2023, raising the subsidy for residential rooftop solar installations. The amended state capital ...

Renewable Energy Market Size & Share Analysis - Growth Trends & Forecasts (2025 - 2030) The Renewable Energy Market Report is Segmented by Technology (Solar Energy, Wind Energy, Hydropower, Bioenergy, ...

The Ministers of Energy and the Environment in Lithuania have approved an additional EUR37 million (US\$43 million) for an energy storage capex grant scheme, while Trina Storage has secured orders in the country.

Green Genius has secured EUR36.7 million in financing from Swedbank to develop one of Lithuania's largest hybrid renewable projects, combining 121 MW of solar capacity with 53 MWh of battery ...

VILNIUS - A solar park in the village of Meiluskiai in Lithuania's northeastern district of Anyksciai, operated by Danish renewable energy company European Energy, has joined the Lithuanian ...
