So I think I need a BMS that can handle 200A, and I need it to have a low-temp cut-off so that I don't kill the cells. I've read that the low-temp cutoff doesn't work as advertised for lots of of the available BMS's. I've read great things here about the Overkill BMS, but the 24V version only goes to 100A.

@AussieSim I assume that is an LLT BMS, could you provide a link to it. If you got any docs, that would be
