

Statkraft, Europe's largest renewable power generator, and a leading provider of market access and optimisation services has signed a series of optimisation PPAs with Gresham House ...

UK solar and storage developer Elements Green has attracted EUR 80 million (USD 93.5m) from a fund managed by Copenhagen Infrastructure Partners (CIP) to support project development, ...

Google has announced that it has signed a global commercial partnership with Milan-based startup Energy Dome and has also invested in its long duration energy storage (LDES) tech ...

A large battery energy storage system (BESS) in Culham, Oxfordshire, has been approved following recognition of the pressing need for energy storage to support the national transition ...

Google enters long-duration energy storage (LDES) with a global commercial partnership and investment in Energy Dome. Energy Dome's CO2 Battery stores clean energy for 8-24 hours, ...

We are specialists in developing and operating wind, solar, and battery storage technology as well as supporting businesses in achieving their sustainability aims with private wire and commercial and industrial solar.

India-UK Vision 2035: Nations to Deepen Collaboration on Energy Storage, Grid Transformation Under the India-UK Vision 2035, the two countries aim to drive ambitious energy security and ...

London-based solar and battery storage developer Elements Green has secured GBP-140-million (USD 190m/EUR 161m) in financing for its 360-MW/720-MWh Staythorpe battery energy storage system (BESS) project in the UK, one of ...

The REA is the UK's largest renewable energy and clean technology body, representing around 500 member companies. Join us to receive up-to-the-minute policy updates, grow your network at our industry-leading ...

Energy storage systems let you capture heat or electricity when it's readily available. This kind of readily available energy is typically renewable energy. By storing it to use later, you make more use of renewable energy ...

London-based battery energy storage systems (BESS) developer Voltwise Power said it has reached a final investment decision (FID) on a 30-MW/60-MWh battery project in England and ...

Latest news on energy storage projects, BESS, capacity expansion, and regulatory updates across Europe, US

London renewable energy storage

& Canada, Latin America, and Asia Pacific. Discover how energy storage solutions support renewable energy ...

A new battery storage system built using supercapacitor technology could "leapfrog" lithium-ion batteries and revolutionise how renewable power is stored and deployed, say its inventors. UK ...

RayGen is proposing to build a fully dispatchable renewable energy facility that will use their innovative concentrated solar PV technology known as PV Ultra and combine it with their Thermal Hydro technology to generate ...
