

Macao opium battery

By 1830s one third of all lethal poisoning was due to opium-marking the first recognition of a social evil. Isolation of Morphine from opium by Serturner in Germany in 1805, hypodermic syringe by Pranez in 1850s, synthesis of morphine by Tschudi in 1952, and manufacturing of synthetic derivatives-called opioids and Heroin eased the use.

In the very early 18th century, Jakob Le Mort (1650-1718), [4] a professor of chemistry at Leiden University, prepared an elixir for asthma and called it "paregoric". [5] The word "paregoric" comes from the Greek word "paregoricon" which was originally applied to oratory - to speak, but, more accurately, talk over, soothe, [6] and finally came to have the same meaning as "anodyne".

This paper critically appraises the role of the opium trade in the politics of 18th-century Macao. By examining previously unexplored Portuguese accounts on opium smuggling, this study ...

The researchers began with three high-morphine varieties of opium poppy, *Papaver somniferum*, and a mutant plant that makes the morphine precursors thebaine and oripavine but can't make morphine ...

The Taliban's opium ban, coupled with Afghan farmers' replacement of poppy largely with low-value wheat, is likely to worsen dissatisfaction and political tensions. The Taliban's persistence in enforcing the ban has been notable, especially in 2024. If the ban remains in place, it would demonstrate the regime's strength but also worsen rural poverty, ...

Though opium yields vary based on growing conditions, 2.5 acres (1 hectare) of poppies typically produce between 17.6 and 33 lbs. (8 to 15 kilograms) of raw opium, according to the book "Opium: A ...

Opium has a complicated global history as a remarkably effective medicine and an instigator of moral panics. As historians Frank Dikötter, Lars Laamann, and Zhou Xun write, in China, this intersected with complex international and class politics. Starting as early as the Tang period (618-907 CE), opium arrived in China by sea and caravan.
