A solar energy system includes solar panels, an inverter, and sometimes a battery. Solar panels capture sunlight and turn it into electricity. The inverter changes this electricity to a form that powers your home. Batteries store extra energy for later use.

Planning to go solar with a 8-9KW grid tied system. Got quotes from a few companies in my area, one of which was Solar Wholesale, which is a DIY kit. The price difference was pretty small, less than \$1500 for the same size system between Solar Wholesale and a local company which does the install and everything, so it doesn't make sense to DIY.
