Does Malaysia need solar power?

Solar power in Malaysia is still in its nascent stages, contributing to less than 1% of the country's total energy consumption. However, the government's goal of increasing the country's share of renewable energy to 31% by 2025 places a significant emphasis on solar. Malaysia's renewable energy forecast to meet its 2050 goal.

Is solar power a catalyst for change in Malaysia?

In recent years, this Southeast Asian nation has witnessed a remarkable surge in solar energy adoption, propelling itself towards a greener, more environmentally conscious energy landscape. As Malaysia strives to reduce its carbon footprint and embrace renewable energy sources, solar power has emerged as a beacon of hope and a catalyst for change.

Where is Malaysia's solar power located?

About half of Malaysia's solar power potential (138 GW) is located in Peninsular Malaysia, 37% (99 GW) in Sabah and 12% (32 GW) in Sarawak. Almost all of this solar resource is currently untapped.

Is Malaysia a good place to invest in solar energy?

Malaysia's renewable energy targets heavily rely on expanding its solar energy capacity. Meanwhile, the country is ideally located for large-scale solar adoption. However, government policies still need improvement, and significantly more investment is required to facilitate this transition. Solar energy in Malaysia is at its early stage.

Is solar a viable alternative to hydropower in Borneo Malaysia?

This is heavily dependent on hydropower (6.3% of the energy mix), a reliable source of low-carbon energy. However, its use is regionally specific and primarily in Borneo Malaysia. The country is looking for alternative options to generate electricity and increase renewable energy access, and solar is coming into the spotlight.

Why should you choose verdant solar in Malaysia?

Leading the Transition: As a respected solar panel supplier in Malaysia, Verdant Solar is at the forefront of transitioning the nation toward a more sustainable energy future. They offer a wide range of solar panels, inverters, and batteries to cater to the growing demand for clean energy solutions.

According to the media statement released by the YAB Deputy Prime Minister and Minister of Energy Transition and Water Transformation (PETRA) on 27 March 2024, the government has introduced a specific incentive program to encourage the installation of solar PV systems for domestic consumers known as the Solar for Rakyat Incentive Scheme (SolaRIS).
