

# Maldives most powerful home solar generator

How many generators are there in Maldives?

Inhabited islands in Maldives have a total of 186 powerhouses with about 290 MW diesel generators and more than 22 MW in renewable energy installations.

Will a 5 MW solar installation make Maldives a popular destination?

Now, one of the first sights for any of the 1.7 million tourists visiting the Maldives will be that of the 5 MW solar installation on the highway linking the airport island to Male and its satellite town of Hulhumale.

How much does a solar project cost in Maldives?

In 2022, 63 investors expressed interest in the third 11 MW solar project in the remote islands of Maldives, and a record low price of 9.8 US cents was received. This is one of the lowest tariffs for any small island developing state (SIDS).

Should investors invest in sustainable solar projects in the Maldives?

In 2014, the first 1.5 MW solar project under ASPIRE only had four investors bids, and resulted in a high power purchase price (PPA) of 21 US cents per unit of electricity, indicating a lack of interest from investors in investing in sustainable projects in the Maldives.

Will Maldives become net-zero by 2030?

Projected to lose 80 percent of its land over the next few decades, the Maldives strengthened its commitment towards climate change and renewable energy targets when President Ibrahim Mohamed Solih announced the country's ambition to become net-zero by 2030 at the UN Climate Ambition Summit in December 2020.

Is the Maldives a sustainable investment destination?

This journey, which started in 2014, is now seeing unprecedented interest from international investors and helping establish the Maldives as an investment destination for sustainable projects.

In a simpler term that most people say to define a solar generator, it is a portable power station that uses solar panels to provide electricity, instead of using traditional fossil fuels. You can usually see people use this solar generator during camping, fishing at night, or in rural/uncivilized areas where electricity is very limited.
