

General Mamadi Doumbouya, Transitional President, Guinea-Conakry has authorized the construction of a 40 MW solar plant in Kindia. Once completed, the Khoumagueli Solar Power Station - the first solar PV facility in the country - ...

On July 4, President Trump signed the "One Big Beautiful Bill." The bill makes steep cuts to solar energy and places new restrictions on energy tax credits that will slow the deployment of ...

In the face of volatile energy pricing and grid instability, energy solutions specialist Aggreko is highlighting the potential for battery energy storage systems (BESS) and battery hybrids to ...

The 500Ah+ large energy storage battery cell technology is rapidly emerging, demanding significantly higher efficiency from thermal management systems. Liquid cooling plate design ...

Energy storage technology has advanced by leaps and bounds in recent years, offering a range of benefits for manufacturing facilities. From reducing energy costs and improving grid stability to ...

After three months of tailored support from EnergyLab and New Energy Nexus, these founders now stand poised to accelerate the country's battery manufacturing capabilities - with ...

Renewable energy storage specialist Apatura said it had received planning consent to build a new grid-scale 560-megawatt battery energy storage system (BESS) near Clydebank in West ...

On July 4, 2025, President Trump signed into law the One Big Beautiful Bill Act (H.R. 1 119th Congress) (OBBBA), which significantly changes the clean energy tax credit landscape established by the Biden administration pursuant to the ...

The porous silicon-based anode material market is experiencing robust growth, driven by the increasing demand for high-energy-density batteries in electric vehicles (EVs), portable ...

In the face of volatile energy pricing and grid instability, Aggreko is highlighting the potential for battery energy storage systems (BESS) and battery hybrids to help increase resilience and on ...

Driven by the "Dual Carbon" goals, TCL--a benchmark of intelligent manufacturing in China--has taken the lead in breaking new ground. The 10MW/20MWh energy storage project, jointly ...

Moment Energy announced that its Metro Vancouver, BC manufacturing hub is now in full-scale production, delivering its flagship battery energy storage systems (BESS) to serve a growing ...

Manufacturing energy storage conakry

Energy Storage Solutions for Manufacturing Facilities In the industrial landscape, the quest for operational efficiency has become more essential than ever. Operations Directors in industrial ...

The sulfide-based solid electrolyte market is experiencing significant growth, driven by the increasing demand for safer and higher-performing batteries in electric vehicles (EVs) and ...

Energy storage and all other types of power projects (i.e., other than solar and wind) have until the end of 2033 to start construction to qualify for technology-neutral tax credits at the full rate. ...

Power-to-X projects, and green hydrogen projects in particular, offer the possibility to tackle both energy generation deficiencies and industrialisation, as sub-Saharan Africa gets closer to becoming a vector in global hydrogen ...
