

Norway-based Glint Solar has added a new noise modelling feature for battery energy storage systems (BESS) to its solar and storage project developer site planning software platform. A...

We can regenerate waste heat using industrial heat pumps delivering heat at high-temperatures, and co-generate cooling, for the best efficiency. Enerin CEO speaks in a SUSHEAT panel on ...

Eaton Technology Summit Data Centres & Energy 2025, Oslo download video 27:33 Session "Data Centre Design for Advancing AI Environment"; Seán A. Timmons, Design & Engineering ...

According to a latest report from market intelligence firm Clean Energy Associates (CEA), the U.S. energy storage system (ESS) battery manufacturing capacity is facing severe challenges. As ...

In the face of volatile energy pricing and grid instability, energy solutions specialist Aggreko is highlighting the potential for battery energy storage systems (BESS) and battery hybrids to help increase resilience and on-site efficiency. At ...

Energy Impact Partners (EIP) is a collaborative strategic investment firm that invests in companies optimizing energy consumption and improving sustainable energy generation. Through close collaboration with its strategic ...

eCap Marine says it will supply 8 MW of hydrogen fuel cell systems for four zero-emission vessels under construction for Norway's Møre Sjøø and logistics firm Samskip, with deliveries expected ...

Detailed info and reviews on 32 top Energy & Cleantech companies and startups in Norway in 2025. Get the latest updates on their products, jobs, funding, investors, founders and more.

The 500Ah+ large energy storage battery cell technology is rapidly emerging, demanding significantly higher efficiency from thermal management systems. Liquid cooling plate design ...
