

While posters of Chapo dotted around Maputo herald the onset of "a new era, toward economic independence," the post-election violence illustrated the disillusionment among young Mozambicans with a party that's ruled since ...

The Energy Transition: A Double-Edged Sword While rate hikes strain household budgets, they may also accelerate the energy transition. Higher utility costs are pushing consumers toward rooftop solar, community aggregation programs, ...

Shifting from dirty fossil fuels to cleaner renewable energy is the ultimate end goal under the global Just Transition campaign. But, Africa has another priority: eradicate energy poverty first. New cross-border oil and gas pipeline projects ...

Chapo was scheduled to meet Pouyanne in Maputo, Mozambique's capital, on July 10. Companies working on the construction of Total's plant have begun preparing to resume operations, according to people familiar with the matter, ...

The UK energy sector is evolving rapidly -- and for skilled professionals in oil and gas, now is the ideal time to explore new opportunities in renewable and low-carbon industries. To support this ...

South African company Eskom purchased 66% of all electricity generated in 2024 by Mozambican company Hidroelétrica de Cahora Bassa (HCB), despite a second consecutive year of decline ...

MAPUTO, July 16, 2025 - TotalEnergies is reviving its USD 20-billion LNG project in Mozambique's Cabo Delgado province after the government declared conditions safe for operations to restart, Lusa reported on Monday. The ...

Maputo, MozambiqueMozambican President, Daniel Chapo, has stated that the country is setting the stage for an economic uplift with two transformative energy projects valued at \$25 billion. ...

(Bloomberg) - Mozambican President Daniel Chapo said he expects to soon conclude talks with TotalEnergies SE over the restart of a \$20 billion natural-gas project that halted four years ago because...

By Gavin Maguire LITTLETON, Colorado, July 24 (Reuters) - Global utilities generated a record amount of clean electricity while cutting output from fossil fuels during the opening half of 2025, ...

The 1,300 km transmission line will connect Tete to Maputo, slashing reliance on fossil fuels and expanding clean energy access to 30 million people. For institutional investors, this aligns with ...

# Maputo energy transition

The Bottom Line: South Africa's energy transition isn't a simple, linear path. It's messy, complex, and politically charged. This loan from the African Development Bank isn't a silver bullet, but ...

The Port of Maputo is rapidly establishing itself as a leading logistics hub for project cargo in southern Africa, following major investments in its infrastructure and operational capabilities. ...
