

Envision Energy announced today that it has executed two supply agreements to provide Lithium Iron Phosphate (LFP) containerised battery energy storage systems (BESS) for Field's ...

The microgrid energy storage market is experiencing robust growth, driven by the increasing need for reliable and resilient power systems, particularly in remote areas and regions with unstable ...

Agência Nacional de Energia Elétrica (ANEEL), Brazil's electricity regulator, will publish initial energy storage regulations in the second half of 2025, with two additional consultation ...

Perfect for microgrids, distributed energy resources, DC fast charging, and Buildings-as-a-Grid, the Eaton xStorage battery energy storage system (BESS) provides reliable, fossil fuel-free backup power for buildings and data centers.

Additionally, the dramatic reduction in the cost of distributed energy resources-particularly solar photovoltaics (PV), energy storage systems, and smart inverters-has been a game-changer for ...

Jinko ESS, a subsidiary corporation of Jinko Solar Co., Ltd., today announced to have secured a 5MWh grid-scale energy storage projects in Italy, marking its official entry into Italy's utility ...

Australian Gas Light Co. (AGL) has purchased 100% of a public housing virtual power plant (VPP) in South Australia from Tesla, with plans to integrate it with its VPP network on the east coast.

The centralized energy storage converter (CESC) market is experiencing robust growth, driven by the increasing adoption of renewable energy sources and the need for grid stabilization. The ...

Norway has introduced fiscal incentives for commercial and industrial (C& I) energy communities, exempting solar power sharing within a single industrial site from electricity taxes and grid fees.

The mobile microgrid energy storage system market is experiencing robust growth, driven by increasing demand for reliable and sustainable off-grid power solutions. Factors such as the ...

Shanghai, China - June 2025 -- At the 2025 SNEC PV Power Expo in Shanghai, Hoenergy unveiled its next-generation commercial and industrial (C& I) energy storage products and ...

As energy storage systems continue to scale across C& I sectors, safety has become a top priority - particularly in densely deployed, high-capacity installations.

## Mexico microgrid energy storage

Oregon passed legislation to allow municipalities, businesses and communities to build, own and operate microgrids "that improve resilience or mitigate the need for infrastructure upgrades." ...

North America saw a turbulent start to summer, with major weather impacts on solar production across the continent. Mexico endured the earliest major hurricane on record, with cloud ...

Oregon lawmakers have passed a pair of bills to enable "microgrids" within the larger power system. Microgrids are essentially local "islands" of energy generation and storage systems ...

The China Energy Storage Alliance (CNESA) has released its 2024 rankings of Chinese energy storage companies, with CATL, Sungrow, and CRRC Zhuzhou Institute securing top positions ...

HyperStrong and Repono AB have formalised their strategic collaboration through a Partnering Agreement on 23 June, aimed at jointly advancing 1.4GWh grid-scale energy storage projects ...
