

Microgrid benefits moscow

Microgrid Solar Systems Are More Than Backup Power: Unlike traditional backup generators, solar microgrids can operate indefinitely during outages and provide continuous economic ...

The operated has raised US\$235 million through an asset-backed securitisation supported by its fully leased Phoenix facility, with proceeds aimed at scaling its data centre footprint across ...

Luxembourg-based SES has completed its US\$3.1 billion (EUR2.8 billion) acquisition of US satellite operator Intelsat, cementing its position as one of the largest multi-orbit satellite providers ...

China has begun building a submerged data centre off the coast of Shanghai, aiming to reduce electricity consumption and environmental impact by using seawater for cooling and offshore ...

In a recent interview with The Tech Capital at Digital Garden 25, Pdraig MacColgain, vice president and head of APAC at Colt DCS, shared insights into Japan's burgeoning data centre ...

The mobile microgrid energy storage system market is experiencing robust growth, driven by increasing demand for reliable and sustainable off-grid power solutions. Factors such as the ...

A microgrid is essentially a small-scale version of a traditional power grid, designed to operate either independently or in conjunction with the larger grid. This flexibility allows for a ...

xAI, an AI startup owned by Elon Musk, is reportedly in talks with financier Valor Equity Partners to secure up to US\$12 billion in funding for its expansion, according to the Wall Street Journal on ...

Macquarie Asset Management has closed its Macquarie European Infrastructure Debt Fund (MEID) with EUR1.2 billion (US\$1.4 billion) raised. An additional EUR2.3 billion (US\$2.67 billion) was ...

However, ongoing technological advancements, government support through policies and funding initiatives, and increasing awareness of the benefits of microgrid energy storage are expected ...

Six months after announcing plans to invest US\$500 billion in US AI infrastructure, the Stargate consortium, comprising Oracle, OpenAI, SoftBank, and Mubadala's MGX, has spent only a fraction of its initial pledge, raising ...

While solar-powered microgrids offer many benefits for increasing energy access, there are also challenges to overcome, including the high upfront costs of building and maintaining a microgrid, limited energy storage capacity, ...

APAC data centre platform Princeton Digital Group (PDG) has signed a definitive agreement with New York-based alternative investment firm Stonepeak for a US\$1.3 billion preferred equity ...

CIA Director John Ratcliffe teased on Sunday that the John Durham report "classified annex" will soon come out and show never-before-seen intelligence. Durham investigated the origins of ...

As power challenges impact Europe's AI data centre hotspots, adopting microgrid independent power can be a cleaner, greener and cheaper alternative to traditional grid connections, writes ...

Australian and New Zealand data centre giant CDC has enlisted advisers from Barrenjoey Capital Partners as it seeks to secure a major debt deal to support its rapid expansion plans, ...

With demand for digital services booming across Europe, industry leaders are calling for a radical shift in how data centres are treated. Moving beyond subsidies, executives from Digital Realty ...

This article introduces a reliable and effective current control technique in a standalone microgrid. Voltage and current regulation in these systems encounters challenges due to nonlinearities ...
