

After a 5-year journey, the European energy initiative TIGON has delivered real-world validation of high-voltage, hybrid microgrids that can slash energy losses, improve resilience, and ...

Advanced control systems, predictive analytics, and IoT-enabled devices are enabling operators to optimize microgrid performance, monitor energy consumption in real-time, and proactively ...

Around one-quarter of all new rooftop PV systems installed in Spain in 2024 included battery storage, underscoring continual growth in distributed energy, despite a decline in total installed ...

Ingeteam is making a significant contribution to Australia's decarbonisation process. The company will contribute its technology to the development of the Maryvale Solar and Energy Storage ...

The US DoC said this week that it has launched a national security investigation into imports of polysilicon and its derivatives. The DoC said the Section 232 investigation is aimed at ...

Jinko ESS, a subsidiary corporation of Jinko Solar Co., Ltd., today announced to have secured a 5MWh grid-scale energy storage projects in Italy, marking its official entry into Italy's utility ...

Sineng Electric has successfully completed the grid connection of a transmission scale energy storage project in central Texas--its first utility-scale ESS installation in the United States. This ...

Conceived for industrial applications, the novel heat pumps can reportedly deliver hot water at 65 C from -10 C up to 35 C of external air, and hot water at 55 C down to -20 C of external air ...

Iberdrola has started approval processes for a 1.32 GW pumped-hydro storage project in Portugal. The Proyecto de Aprovechamiento Hidroeléctrico de Minhéu is set to become the ...

Shanghai, China - June 2025 -- At the 2025 SNEC PV Power Expo in Shanghai, Hoenergy unveiled its next-generation commercial and industrial (C& I) energy storage products and ...

This paper gives a thorough overview of the technological advancements in microgrid systems, focusing on the Internet of Things (IoT), predictive analytics, real-time monitoring, ...

Aisa Group is seeking to secure financial incentive to build a massive photovoltaic park in the department of Jáchal, province of San Juan, with an estimated investment of \$600 million. The ...

India's Ministry of New and Renewable Energy (MNRE) has released draft guidelines outlining the data

Microgrid control france

communication and cybersecurity architecture for remote monitoring systems (RMS) ...

Huasun Energy marks its fifth anniversary, celebrating a remarkable rise from ambitious startup to the world's leading manufacturer of ultra-high-efficiency heterojunction (HJT) solar products ...
