

To investigate and examine solar panels' ability to generate electricity under low light conditions, a comparison test was conducted on a rooftop project in Chengdu, southwest of China, which is ...

Jinko ESS, a subsidiary corporation of Jinko Solar Co., Ltd., today announced to have secured a 5MWh grid-scale energy storage projects in Italy, marking its official entry into Italy's utility ...

This paper gives a thorough overview of the technological advancements in microgrid systems, focusing on the Internet of Things (IoT), predictive analytics, real-time monitoring, ...

Iberdrola has initiated the environmental impact assessment (EIA) process for the Minhé Hydroelectric Power Project, a pumped storage facility with 1,320 MW of installed capacity. If ...

Conceived for industrial applications, the novel heat pumps can reportedly deliver hot water at 65 C from -10 C up to 35 C of external air, and hot water at 55 C down to -20 C of external air ...

Ingeteam is making a significant contribution to Australia's decarbonisation process. The company will contribute its technology to the development of the Maryvale Solar and Energy Storage ...

The application of a virtual synchronous generator (VSG) to provide virtual inertia in isolated microgrids has emerged as a promising control strategy for converter-interfaced renewable ...

Direct current microgrids are widely regarded as a promising clean power system technique. However, the microgrid stability is challenged by routine operations and unplanned faults, ...

HyperStrong and Repono AB have formalised their strategic collaboration through a Partnering Agreement on 23 June, aimed at jointly advancing 1.4GWh grid-scale energy storage projects ...

Researchers have used the jellyfish search algorithm to optimize solar PV distributed generation placement and sizing. They have tested the algorithm on an IEEE 33-bus system, with one, ...

SAEL Industries Ltd. will invest INR 82 billion (\$955 million) to build a 5 GW solar cell and module plant in India. The facility will raise its total manufacturing capacity to 8.5 GW.

Gordon Brothers, the global asset experts, has launched its largest ever private treaty sale of solar inverters, including over 5,000 brand-new units. This unique opportunity follows the ...

The US DoC said this week that it has launched a national security investigation into imports of polysilicon

and its derivatives. The DoC said the Section 232 investigation is aimed at ...

A comparative analysis of the classical PI and sliding mode control-based designs is conducted under various grid conditions, such as cold ironing mode of the shipboard microgrid, and load variations, considering both the AC and DC loads.

Microgrid control portugal
