

My energy libbi Tuvalu

How does myenergi Libbi work?

Remote Access- myenergi app allows you to access and control your libbi from anywhere in the world. Live displays allow you to monitor your imported and exported electricity, all in one place. Modular Storage By Design - Each battery module stores 5kWh of electricity. Combining four together provides up to 20kWh of storage.

Does Libbi work with solar PV?

A home battery storage system to suit your needs. libbi works as both an AC and DC coupled battery system with solar PV. Connect PV without the need for a separate inverter or retrofit to any existing AC system. Connect your new solar array directly to your battery, with no additional inverter needed!

Why should you buy a myenergi Libbi battery storage system?

The MyEnergi battery storage system keeps hold of excess energy during the day and distributes it at night. This helps to reduce your energy bills and reduce reliance on the grid. Additionally, the MyEnergi Libbi is known for its sleek design, high efficiency, and durability, making it a smart investment for any eco-conscious homeowner.

Is Libbi a smart home battery storage system?

libbi isn't just a home battery storage system, it's eco smart. This means it makes intelligent decisions about when it provides and stores electricity based on how much energy you use, how much you generate with your solar and the electricity tariff you use. Libbi is smart...libbi seamlessly connects to your existing myenergi devices.

How does Libbi work in a power outage?

This means that in the event of a power outage, libbi will provide the electricity it's stored to a dedicated circuit or socket that's connected to the libbi back-up output. Store your excess solar power & collect off peak grid energy with libbi, a modular home battery storage system available in 5kWh, 10kWh, 15kWh & 20kWh variants.

How do I charge the Libbi?

Charging the Libbi is possible with excess solar generation or using cheaper overnight electricity tariffs. The Libbi is extremely versatile and fits straight into your MyEnergi system. It makes smart decisions about when to charge and drain your battery based on your usage and tariff.
