

# Nauru nomadd desert solar solutions

Designed to offer the best dust control solution for all desert solar array applications, the NOMADD cleaning robot is the result of years worth of careful research, design and field testing. Designed to be adaptable and durable for a ...

The startup, NOMADD Desert Solar Solutions has created a simple way to solve this problem: it's called the NO-water Mechanical Automated Dusting Device, from which the startup gets its name. The design includes a long 3-5 meter tube, which runs along rails from one end of a solar panel array to the other cleaning as it goes.

NOMADDs focus is in simplicity, durability, resilience and reliability for any desert climate. Designed for a 25 year operation at any solar field array with minimum moving parts and a uniquely patented angle brush design. NOMADD is a waterless fully automated solar cleaning system able to clean an entire array within 2 hours

Saudi Aramco has agreed to give Nomadd the right to develop and manufacture solar array cleaning technology that was initially developed by Saudi Aramco's research and development (R& D) team at KAUST. This technology will be integrated with Nomadd's system. The product will be distributed in Saudi Arabia.

NOMADD's &quot;fixed-tilt installations&quot; thus offer dust control solution for all desert solar array applications, with each of its robots capable of cleaning up to one kilometer of solar panels.

JEDDAH (April 17, 2018) NOMADD Desert Solar Solutions announced the signing of a contract for a commercial rooftop system in Dubai. NOMADD supplies waterless robotic cleaning systems for solar arrays. In the Middle East dust is the primary factor affecting solar plant performance. As all eyes in the solar industry are now focused on the many ...
