

New Caledonia turbo power systems

Who is turbo power systems (TPS)?

Turbo Power Systems (TPS) will be at the Low Carbon Networks and Innovation Conference (LCNI) 2017, between 6-7 December, at stand A01. Gateshead-based Turbo Power Systems (TPS) has won first prize in the Losses Competition at the annual Energy Innovation Centre Awards, with the support of its partner, UK Power Networks.

How much power can a turbo power system deliver?

The chargers can be scaled up to deliver 480kW of power per vehicle, which means they can be used by electric heavy goods vehicles and Turbo Power Systems has ambitions to double the output to 1MW of power. Initial small volumes of the products will go into production at the firm's Team Valley premises this summer.
