Battery producer Elinor Batteries and SINTEF, a Norway-based research organisation, have entered into a Memorandum of Understanding (MoU) to establish a giga-scale battery factory for production in central Norway. Through the collaboration, Elinor has secured the necessary resources needed in research and development to drive the project forward.

Both of these factors threaten to raise consumer electricity prices and increase SPOT price spikes. ?? With the Nelinor Grid Battery, you can reduce the costs of your electricity bill by eliminating price spikes while also reducing dependence on the electricity grid and becoming more self-sufficient. ?? ?
