

Will the insolvent Swedish battery producer Northvolt soon get a new owner? According to the insolvency administrator, several interested parties have thrown their hats into the ring. The ...

L'entreprise américaine Lyten, spécialisée dans la production de batteries, a annoncé; ce mardi le rachat des activités polonaises du groupe suédois Northvolt, qui a fait faillite. Et ...

**Battery Technology** The company's innovative electrolysis platform addresses significant challenges in battery manufacturing and recycling. Their technology converts sodium sulfate waste, a common byproduct in battery cathode ...

The order means that Northvolt becomes the strategic lead supplier for Volkswagen in Europe. With the order worth more than \$14 billion over the next 10 years, Northvolt now has secured \$27 billion worth of contracts from ...

Sodium-ion batteries have emerged as promising alternatives to the widely used Lithium-ion batteries, offering cost efficiency and greater availability due to the abundance of sodium on ...

Lyten buys Northvolt's Gdansk, Poland, battery plant at bankruptcy auction, with energy storage production in mind. Lithium-sulfur battery technology is Lyten's specialty, with this battery type ...

Lyten, a global leader in lithium-sulfur battery technology, recently announced the completion of its acquisition of Northvolt's Dwa ESS business in Gdansk, Poland. Covering an area of ...

Lyten, a tiny California battery startup, turned heads by snapping up assets from one of the industry's most high-profile failures--but Lyten is now struggling itself. Lyten this week laid off its chief battery strategist, just three weeks after it ...

Lyten's newly acquired battery energy storage systems manufacturing facility features state-of-the-art robotics and automation. Lyten acquired the facility, in Gdansk, Poland, from Northvolt. ...

Northvolt is one of the leading rack lithium battery suppliers in the European Union, known for its large-scale, sustainable lithium-ion battery production with a low carbon footprint. The ...

The American lithium battery manufacturer writes in a press release that it intends to immediately resume production in Gdansk. Previously, Lyten has purchased Northvolt's operations in ...

The Electric is a publication from Steve LeVine and The Information focused on crucial industries for the energy transition, including next-generation batteries, electric vehicles and autonomous driving. The newsletter is only for ...

SOPHIA ANTIPOLIS, France - 21 July, 2025 |The Northvolt case is a textbook example of growth and bankruptcy in the field of lithium-ion battery production, albeit with a portfolio of ...

Sodium-ion Battery Market Analysis by Mordor Intelligence The Sodium-ion Battery Market size is estimated at USD 0.47 billion in 2025, and is expected to reach USD 1 billion by 2030, at a CAGR of 16.63% during the ...

Lyten Acquires Largest Battery Energy Storage Manufacturing Facility in Europe from Northvolt to Expand Global BESS Production -- Lyten, a leader in supermaterials and lithium-sulfur battery ...

The Northvolt acquisition accelerates expansion of Lyten's lithium-sulfur batteries into Europe and provides Lyten with production capacity to meet demand in the growing BESS market. Lyten ...

Electronics Production | June 30, 2025 Production stops at Northvolt's battery plant - future remains uncertain Production at Northvolt's battery factory in Skellefteå; i Northern Sweden ...

This article analyzes the reasons behind Northvolt's failure, the structural hurdles facing Europe's lithium battery industry, and how China's leading lithium battery manufacturers can seize ...

Lyten's acquisition of Northvolt's battery plant in Skellefteå, Sweden, is a significant move for the company. The facility, which has a capacity of 25,000 square meters, was previously owned by Northvolt Systems, a subsidiary of Northvolt. ...

La gigafactory de Northvolt cesse sa production, mettant fin à une aventure européenne dans le secteur des batteries, traditionnellement dominé par des constructeurs asiatiques. Retour sur ...

Aerial view of the 25,000-square meter battery energy storage systems manufacturing facility, in Gdansk, Poland, acquired by Lyten from Northvolt. The facility, previously known as Northvolt ...

San Jose, CA & Luxembourg - July 1, 2025 - (BUSINESS WIRE) - Lyten, the supermaterial applications company and global leader in lithium-sulfur batteries, announced today the ...
