

Nrel energy storage

Researchers at the US Department of Energy 's National Renewable Energy Laboratory (NREL) are exploring an alternative method of direct recycling, which aims to preserve and refurbish ...

NTPC Green Energy Limited (NGEL), a subsidiary of NTPC Limited, has entered into a Memorandum of Understanding (MoU) with Bihar State Power Generation Company Limited (BSPGCL) to jointly develop battery energy storage ...

- Jud Virden, a 30-year energy R& D leader, becomes NREL director on October 1, 2025, aligning with global decarbonization priorities. - His focus on grid resilience, perovskite solar cells, and hydrogen tech will accelerate IRA-driven ...

New energy storage research from NREL, a U.S. Department of Energy national laboratory, has demonstrated a way to store and reuse heat underground to meet the heating demands of ...

The Alliance for Sustainable Energy (Alliance) today announced the appointment of Jud Virden, Ph.D., as director of NREL and president of the Alliance, which manages the laboratory for the ...

By NREL's analysis, airports can optimize the value of their energy investments by building local generation--like battery storage--and by supplying electricity back to the local grid to bolster ...

Researchers at the U.S. Department of Energy's National Renewable Energy Laboratory (NREL) developed a translucent solar panel to allow certain light spectrums to pass through that are...

Anaktuvuk Pass, Alaska, in winter. Photo by Molly Rettig, NREL New energy storage research from NREL, a U.S. Department of Energy national laboratory, has demonstrated a way to ...

NREL's hydrogen lab at the Energy Systems Integration Facility (ESIF) is refining electrolyzer efficiency and storage methods. A \$7 billion federal investment in hydrogen hubs will further ...
