

Online apply for solar scheme Ethiopia

Does Ethiopia have a solar energy system?

On the other hand, Ethiopia is largely endowed with sunshine. Solar energy systems fit for household use are already partly available in the country. However, they are imported goods of inferior quality that often break down after a few months and thus threaten people's trust in solar energy systems.

Is solar a viable option in Ethiopia?

But our previous study identified that the policy makers in Ethiopia believe that solar is too costly and not a viable option. The current electricity tariff in Ethiopia is highly subsidized and one of the lowest in Africa. The tariff depends on the monthly energy consumption and varies among user classification.

Why do Ethiopians use a light switch?

Many families in Ethiopia are happy when they can come home in the evening and operate a light switch. They also have the opportunity to recharge their mobile phones, because for many Ethiopians these are an elementary tool on which they depend for example for mobile banking.
