Choice of 4 battery breaker sizes (reduces # of cabinets) Longer battery service and shelf Roll-out trays for faster, safer service Provisions for mounting Cellwatch battery monitoring components Thermal sensor to communicate with UPS or building management system Welded frame cabinet design for stability IBC2018 seismic rated life

Cabinet-mounted VRLA batteries can be expected to operate in a warmer environment than on a rack, thereby potentially reducing the operational life of the battery. Additional cooling is rarely required for a battery cabinet, but the cabinet must have (1) unobstructed paths within the cabinet for hot air to rise, and (2) adequate openings for ...
