Who is Ballard Power Systems Europe?

Ballard Power Systems Europe A/S is engaged in the development, sale and production of fuel cell technology systems. For several years, Ballard Power Systems Europe has been devoting considerable resources to the development of commercial products based on the fuel cell technology. The development has continued in 2019.

How many hydrogen fuel cell engines does Ballard Power Systems have?

Ballard Power Systems has confirmed multiple purchase orders for a total of 177 hydrogen fuel cell engines from long-standing customer Solaris Bus & Coach, a leading European bus manufacturer that is deploying hydrogen-powered buses across the continent.

What financial statements have Ballard Power Systems Europe a/s been audited?

We have audited the financial statements of Ballard Power Systems Europe A/S for the financial year 1 January - 31 December 2019 comprising income statement, balance sheet, statement of changes in equity and notes, including accounting policies. The financial statements are prepared in accordance with the Danish Financial Statements Act.

Does Ballard Power Systems Europe a/s report to a Class B entity?

The annual report of Ballard Power Systems Europe A/S for 2019 has been prepared in accordance with the provisions applying to reporting class B entities under the Danish Financial Statements Act with opt-in from higher reporting classes.

What does Ballard Europe do?

Ballard Europe is growing and will continue to invest in providing sustainable mobility solutions made and serviced locally. We look forward to work with industry, communities, and policymakers to accelerate the shift to zero-emission transportation in Europe.

What are Ballard's new purchase orders?

The purchase orders include the largest single order to-date that Ballard has received from Solaris - and the largest announced deployment of fuel cell city buses in Europe - with 127 buses set for operation in Bologna, Italy.

Ballard Power Systems Inc. (Ballard) was a pioneer and world leader in hydrogen fuel cell power system development and commercialization, employing over 1,100 employees worldwide, with operations in China, Europe, and North America. However, despite its strong revenue growth, Ballard had failed to report positive operating income since 1993. At ...
